ABOUT

Software Engineer and Co-Founder of innovative digital ventures. I combine technical expertise, product vision, and an entrepreneurial mindset to design and scale high-performance, scalable platforms focused on user needs.

SKILLS

- Full Stack Developpement (Python, Django, React, js)
- Software architecture & REST API Design
- Database management (PostgreSQL, Redis)
- DevOps, deployment & continuous Integration (Docker, Linux, Nginx, Git, CI/CD)
- Project Management, Requirements Analysis & Problem-Solving

PROFESSIONAL EXPERIENCE

Co-Founder & Technical Lead - Innovee inc / Vonliva

Since October 2023

- Defined the functional and technical architecture of marketplaces and established the projects' technology strategies.
- Developed e-commerce platforms and implemented key features to ensure performance, scalability, and software quality.
- Designed and optimized seller and buyer journeys to enhance user experience and conversion rates.

Full-Stack Developer - Utihoo

January 2023 – October 2023

- Full-stack design and development of the Netwin advertising platform.
- Developed features for managing advertisers, advertising campaigns, and ad placement inventory.
- Performed corrective and evolutionary maintenance of the platform in collaboration with business and product teams.

Full-Stack Developer - Freelance

Since February 2020

- Designed and developed web applications, business platforms, and custom digital solutions.
- Analyzed client requirements and prepared functional and technical specifications.
- Performed corrective and evolutionary maintenance of existing platforms.

PROJECTS

- Designed and developed an advertising management platform for managing and monitoring digital campaigns.
- Developed a web application and PWA featuring real-time functionality and dynamic bidding mechanisms.
- Designed e-commerce platforms and marketplaces with a focus on user experience, performance, and scalability.
- Developed business websites and digital solutions for businesses in the restaurant and food service industry.
- Developed a university platform for remote supervision and management of students and academic projects.
- Developed an internship management application facilitating communication between universities, companies, and students.
